

# ***Snyder has got it all WRONG!!***

## ***Let him know how you feel this Saturday***

Governor Rick Snyder is about to sign into law a **new tax on retiree pensions amounting to over \$560 million a year**. He proposes **cutting over \$900 million or \$470 per pupil in funding for K-12 education**. Moreover, while he puts the squeeze on working families and retirees, corporations cash in – Snyder gave businesses and corporations a budget-busting **\$1.8 billion in tax breaks**.

This week, state officials have announced that projected tax revenues are expected to be **\$429 million more this year and \$499 million more next year**. This increase is attributed to the turnaround in the auto industry.

Michigan's economy needs JOBS. We need jobs to buy homes and goods in communities, jobs to generate sales and income tax. Devastating the public education system in Michigan hurts our state's competitiveness and makes our state less attractive for businesses looking to relocate or expand. When seniors on fixed income are asked to subsidize corporate tax cuts, there is no "shared sacrifice."

Budgets matter. How tax dollars are spent matter. If these things matter to you and your family, join your teachers, neighbors, family and other concerned citizens this weekend in Lansing. Come show the Governor YOUR priorities.
