**Labor and community allies join Rainbow Push Coalition Founder and President, the Reverend Jesse Jackson, Sr., to rally to change our national priorities on jobs, justice and peace.**

**We will call on our national leaders to:**

- 1) rebuild America by enacting industrial and trade policies that will create jobs, encourage manufacturing in America and put workers first;**
- 2) enforce the law regarding workers' rights, civil rights, industrial regulation and creation of fair and just educational, economic, and health policies;**
- 3) end the ongoing wars in the Middle East and redirect the war budget to rebuilding America; and**
- 4) enact a moratorium on the practice that forces hardworking Americans from their homes while at the same time bailing out Wall Street executives and paying them million dollar bonuses.**
